* Fruit Sugar Concentrate (100% Fruit Syrup)

A vibrant assortment of tropical and exotic fruits. At the top center is a whole orange with a green leaf. To its left is a whole dragon fruit (pitaya) with a bright pink, bumpy skin. In the center are two ripe mangoes, one yellow and one orange. To the right is a whole green guava and a cross-section of it showing a pink, juicy interior with small seeds. In the foreground, there are several longan fruits, some whole and one cut open to reveal a dark, fleshy seed. A small cluster of blueberries with green leaves is also present. The fruits are arranged on a white surface with soft shadows.

A full spectrum of activities: concept to branded products
